

## CGIAR Research Centers and its Partners; A peek into some of the information that can be generated from the CGIAR Research Map (May 2009)

CGIAR research in Africa is an online project repository of the CGIAR projects in the region.

The database has continually been growing in the number of populated projects from 2007 when the first survey was carried out up to today with research activities that are extended to the whole of Africa. The database has a total of 547 projects from 14 CGIAR centers and no projects reported from IRRI as yet.

A snap shot of the information that can be extracted from the map;

A Dynamic Ecological Simulation Model of Tsetse Transmitted Trypanosomosis in Kenya

Lead Center: **PROJECT SNAPSHOT**

Country(s): Kenya, Tanzania

Research Areas: Livestock

Start Date: Sat Sep 01 2007 00:00:00 GMT+0300

End Date: Sun Aug 01 2010 00:00:00 GMT+0300

Research Partner(s): Michigan State University (University), Ministry of Livestock, Kenya (Government)

Related MTP Project(s): ILRI Project 01

Keywords: Ecological simulation, Tsetse, Trypanosomosis

Scientists: Jennifer Olson [Send Email](#)

Principal Investigator: Joseph Maitima [Send Email](#)

This facts and figures report aims at highlighting the different partners that the centers partner with in research.

**Figure 1 – Number of CGIAR Center projects in the inventory**

There are a total of 830 different partners collaborating with the centers which have been broadly categorised into 11 partner types.

- Advanced Research Institute (ARI)
- Community Based Organisation (CBO)
- Development Organization - UN and international organization
- Government
- International Agricultural Research Centers (IARC)
- National Agriculture Research System (NARS) – *NARI and NARO*
- Non Governmental Organisation (NGO)
- Private sector - *seed sectors, farmers, farmer organization / communities etc*
- Regional and Sub-Regional Organization
- Universities
- Others – *Agricultural Development Programs (ADP), etc.*

#### **Degree of Partnership**

Although there are variations in individual centers majority of the centers reported to be partnering the most with NARS (26), Universities (18) and IARC (11) and least with ARI (4), Development Organization - UN and international organization (4) and CBO (2).

Table I below gives the overall analysis across CGIAR centers in percentage. Table II shows the leading partner type that each CGIAR center in the inventory reported to be collaborating with in its projects. Projects may have listed more than one partner type.

**Table I – Percentage of projects partnering with different partner types**

<b>Partner Type</b>	<b>Percent</b>
National Agriculture Research System (NARS)	26.3
Universities	18.1
International Agricultural Research Centers (IARC)	11.2
Non Governmental Organisation (NGO)	8.9
Government	8.6
Others	7.4
Private sector	5.2
Regional and Sub-Regional Organization	4.4
Advanced Research Institute - ARI	4.2
Development Organization - UN and international organization	3.6
Community Based Organisation (CBO)	2.1
Total	100.00

**Table II – leading partner type in CGIAR Centers and percentage of projects involving each partner type**

<b>Bioversity</b>	<b>CIAT</b>	<b>CIFOR</b>	<b>CIMMYT</b>	<b>CIP</b>	<b>ICARDA</b>	<b>ICRAF</b>
NARS (32)	NARS (36)	Universities (63)	Private sector (21)	Universities (26)	NARS (53)	NGO (24)
Government (15)	IARC (15)	Government (20)	Government (16)	IARC (21)	Government (33)	NARS (21)
Universities (15)	Universities (14)	IARC (9)	IARC (15)	NARS (21)	Private sector (7)	Others (19)
Regional and Sub-Regional Org (9)	NGO (13)	Dvp. Org - UN & international organization (6)	Others (9)	Government (8)	NGO (7)	Universities (10)
NGO (8)	Government (5)	NARS (3)	ARI (8)	NGO (8)		IARC (9)
<b>ICRISAT</b>	<b>IFPRI</b>	<b>IITA</b>	<b>ILRI</b>	<b>IWMI</b>	<b>WARDA</b>	<b>WorldFish</b>
NARS (23)	Universities (30)	NARS (37)	Universities (19)	IARC (24)	NARS (62)	Universities (22)
Universities (14)	NARS (28)	Universities (14)	NARS (17)	Universities (23)	CBO (14)	Others (22)
IARC (13)	Government (8)	NGO (10)	ARI (14)	NARS (11)	Private sector (10)	NARS (17)
NGO (12)	NGO (8)	IARC (8)	Government (12)	Others (10)	Universities (7)	Private sector (17)
Private sector (8)	Others (7)	Private sector (8)	Others (10)	Government (10)	NGO (7)	NGO (9)

Most Individual centers reported NARS and Universities as leading partner institutions with the exception of CIMMYT, ICRAF and IWMI who reported Private sector, NGO and IARC as leading partner institutions.

This report is based on the existing data in the inventory and is subject to change as more project information is entered in the database. The full partners can be accessed at; [http://www.ilri.org/regionalplan/index.php?option=com\\_content&view=article&id=84&Itemid=122](http://www.ilri.org/regionalplan/index.php?option=com_content&view=article&id=84&Itemid=122)
